Alberta, Okotoks

Trade Agreement(s)

Not applicable

Description

The Town of Okotoks intends to issue a Request for Proposals early July 2026 for ERP software and implementation services. This procurement is intended to support the replacement of aging core enterprise systems and establish a foundational platform for phased modernization across the organization. The immediate priority focuses on core financials, human resources and payroll, taxation, utility billing, and related enterprise capabilities, with room for future expansion over time.

This is not an invitation for quotes or proposals, but an advance notice to inform potential proponents of an upcoming opportunity. Potential proponents may not contact Town staff or administration about this project during the procurement process. Questions may be submitted during the formal RFP process as detailed in the procurement documents.

The Town’s current intention is for the project start date to be January 2027. Please monitor the Town’s Bids and Tenders Bidding Portal (<https://okotoks.bidsandtenders.ca>) for posting details. Registered plan takers on Bids and Tenders will also be sent a courtesy notification when the opportunity is posted.

The Town is planning to host a Pre-Procurement Information Session on Wednesday, June 24, 2026, starting at 1:00 p.m. MT. This optional session is intended to provide high-level context regarding the upcoming procurement process.

The Town will allow proponents to provide general market feedback on matters such as timing, implementation capacity, and other high-level considerations that may help support procurement planning. This session is for information and market awareness purposes.

UNSPSC Commodity Codes

The United Nations Standard Products and Services Code (UNSPSC) is an international classification system for products and services. You can use these codes to search for opportunities/notices that match the specific categories of products and/or services you supply. Previously used Goods and Services Identification Number (GSIN) codes are also listed, where available, as a convenience to Suppliers.

Code ↑	GSIN Code	Description	Code Level ↑
43231600	N7030	Finance accounting and enterprise resource planning ERP software	Class
81111508	D308	Application implementation services	Commodity

Note: Access the full open dataset of codes used in APC at [Open Government](#).
